Deployment & Environment Management

## 👤 PROFILE

Results-driven software developer with experience building scalable web applications and internal business systems that improve efficiency and automate workflows. Skilled in delivering reliable, user-focused solutions aligned with business needs, and a strong focus on performance, quality, and continuous improvement.

## 📁 EMPLOYMENT HISTORY

### Frontend Developer at Jambojet, Nairobi

Nov 2024 — Present

- Led the design and development of an internal staff travel platform, automating booking, modification, and approval workflows, reducing manual processing time by 60% and significantly improving operational efficiency.
- Architected a real-time approval and administration system with role-based access and reporting, reducing approval turnaround from days to hours and lowering processing errors by over 50%.
- Built an automated itinerary generation and delivery system, enabling dynamic creation and distribution of passenger itineraries, eliminating manual intervention and ensuring timely and accurate communication.
- Developed a centralized inventory management system providing real-time visibility into asset tracking and control, enabling more efficient resource planning.
- Managed production deployment and performance, ensuring reliable, scalable, and secure platforms.

### Junior Full Stack Developer at Shop Online, New York

Jan 2024 — Oct 2024

- Successfully completed multiple software products through the Software Development Lifecycle (SDLC), ensuring timely delivery.
- Implemented scalable and robust backend solutions, significantly enhancing system performance and reliability.

### Web Developer at Acme Software Lab, Lagos

Apr 2022 — Nov 2023

- Developed responsive user interfaces leading to increase in user engagements.
- Contributed to code reviews, ensuring code quality and adherence to best practices.

## 🎓 EDUCATION

### BSc. Environmental Health, Kenyatta University, Nairobi

Aug 2016 — Jul 2021

## 🔧 COURSES

ITIL Foundation, PeopleCert

AWS Certified Cloud Practitioner CLF-C02, Udemy
